

ELEVE O SEU NEGÓCIO AO  
**PRÓXIMO NÍVEL**

... to inform practice and policy  
about promising strategies for improving quality  
and safety of hospital care

- Focus is on the hospital nurse workforce  
because nursing care is ...
  - a major intervention provided by hospitals
  - accounts for a substantial share of hospital expenses
  - varies substantially across hospitals
  - is modifiable
  - is a “soft target” for achieving cost reductions with  
adverse consequences for care quality
